Narrative:

FAMILY

Reason for Agency Involvement

(Agency's perspective narrative)

(Family's perspective narrative)

Cultural

Cultural factors that affect family's protective capacities	Streng Need
Communication/language factors impact intervention	Strength/ Need

Narrative:

Comment [AXJ1]: This is a 'Notification' which means that there are no user entered fields, and all fields pre-fill from the Family Assessment page. Therefore, beginning from top to bottom all fields pre-fill from the exact corresponding field on the Family Assessment page.

Comment [AXJ2]: These fields pre-fill from their corresponding fields in the Case header information group box.

Comment [AXJ3]: These fields pre-fill from their corresponding fields on the Participants tab of the Family Assessment page.

Comment [AXJ4]: These fields pre-fill from their corresponding fields on the Prior Intakes/Investigations tab of the Family Assessment page, within the Prior Intakes group box.

Comment [AXJ5]: These fields pre-fill from their corresponding fields on the Prior Intakes/Investigations tab of the Family Assessment page, within the Prior Investigations/Referrals group box.

Comment [AXJ6]: This field pre-fills from the narrative field on the Prior Intakes/Investigations tab of the Family Assessment page.

Comment [AXJ7]: The Reason for Agency Involvement section pre-fills from the two corresponding narrative fields on the Family tab of the Family Assessment page, for the Reason for Agency Involvement Factor.

Comment [AXJ8]: The Cultural section pre-fills from their corresponding fields on the Family tab of the Family Assessment page, for the Cultural Factor.

Environmental	
Behaviors of any household member affect child well-being.	Streng Need
Family's ability to manage stressors.	Strength/ Need
Narrative:	

Comment [AXJ9]: The Environmental section pre-fills from their corresponding fields on the Family tab of the Family Assessment page, for the Environmental Factor.

Professional and Other Input					
Source Type	Other	Name of Source	Affiliation	Date of Contact	Method of Conta

Comment [AXJ10]: These fields pre-fill from their corresponding fields on the Family tab of the Family Assessment page, for the Input/Involvement Factor when the Insert button is selected within the Input/Involvement group box.

Input
(Narrative)

Comment [AXJ11]: This field pre-fills from its corresponding field on the Family tab of the Family Assessment page, for the Input/Involvement Factor when the Insert button is selected within the Input/Involvement group box.

Other Agency Involvement

Comment [AXJ12]: This field pre-fills from its corresponding field on the Family tab of the Family Assessment page, for the Input/Involvement Factor.

Safety
Is there an Active Safety Plan?
Are there any signs of present danger, threats of harm, protective capacities or child vulnerability concerns that would suggest the need for an initial or updated Family Assessment?
Narrative:

Comment [AXJ13]: These fields pre-fill form their corresponding fields on the Safety tab of the Family Assessment page, for the Safety Factor.

Emerging dangers	Ye
Are danger-related risk dynamics (substance abuse, mental illness, violence, perception of the child, domestic violence) escalating in intensity or frequency?
