Adoption Staff

What is Changing?

The **Case Book and Person Book page** has been modified to display the Post Adoption Services page within the center panel when Adoption is selected from the center panel drop down.

On both pages the Post Adoption Services pages will be displayed directly following the Photo-Sibling Group and will use the same icon as the other Adoption work; the Post Adoption Services page will also display those records created or updated within the last 24 months in order of newest to oldest based on the create date.

The Desktop – Case View and Desktop-Participant View has been modified to display the Post Adoption Services page within the Adoption icon.

On both pages the Post Adoption Services page will display by person, in alphabetical order based on last name, then first name and middle name. The Post Adoption Services page displays based on Person ID across all FSFN Cases in which that person is a Case Participant.
